FOR LOVE OF CHILDREN Virtual Learning Program

Highlights

I love tutoring Jaymie because she is extremely creative and has great energy. Even if I've had a bad day, she always makes it better."

-Serena, FLOC tutor

My daughter has never been excited about learning. After just two virtual tutoring sessions with FLOC, I was blown away. I went to check on her because it sounded like she was having too much fun to be learning, but surprisingly, she was just reading along with Ms. Diane, answering questions and excitedly participating. All I could do was smile. I am extremely grateful to FLOC and all of its volunteers.

-Takisha, FLOC parent

I like working with Shannon because she makes learning easy, lets me draw, and asks how my week is.

-Kezia, FLOC student

**TEACH.
EMPOWER.
TRANSFORM.**

ABOVE: FLOC students give their tutors thumbs up to show they understand what they are learning.

BELOW: FLOC's post-secondary students receive a care package during finals.
